

# ENJOY YOUR BABIES!

## Sing to your baby

Singing is fun, and provides baby with lots of low frequency speech information and brain development!

## Talk to your baby

Baby can hear!  
Talk to him about his world.

## Listen to your baby

Baby will coo and babble.  
Feed back his sounds to him and help him to discover the power of his voice.

## Play with your baby

The best strategy for brain development is to gain baby's attention by engaging her with fun interaction.
